# Chieftain Tank Mounted Variable Speed Screw Compressor

## MODEL FC150-30V

- Highly effective insulation and cabinet design ensure the compressor operates quietly, ideal for noise-sensitive areas
- The 1-micron filtration ensures clean compressed air supply and prevents damage occurring to tools and machinery
- Oversized cooling system and silent axial flow fan ensures accurate and powerful temperature control
- Compact design ensures minimal footprint with maximum quality compressed air
- Electrical cabinet IP54 class protection
- 2 year warranty

### SPECIFICATIONS

| Model                    | Motor Power | Pressure (BAR)   | Flow Rates (CFM) |
|--------------------------|-------------|------------------|------------------|
| <b>FC150-30V</b>         | 11KW        | 8                | 56               |
|                          |             | 10               | 50               |
| Decibel Rating           |             | 62db             |                  |
| Fixed/Variable Speed     |             | Variable         |                  |
| Drive Type               |             | Belt             |                  |
| Outlet Size              |             | 3/4"             |                  |
| Dimensions L/W/H         |             | 1650/830/1816 MM |                  |
| Tank Size                |             | 300L             |                  |
| Weight                   |             | 391KG            |                  |
| Circuit Breaker Required |             | 25 AMPS          |                  |

approx. scale

**NOTE:** All stocked compressors are 10bar standard.  
All Circuit Breakers must be D Curve.

### AIR SYSTEM SERVICING

Don't let your air system bring down production.

Whether you need emergency assistance or regular service maintenance of your air supply system, contact FOCUS compressors.
